## WHY 1958?

A lot has changed since MMRI was first established in 1958. Back then,

Gas was only \$0.30 per gallon

Elvis was dominating the billboard charts

NY Yankee bleacher seats were only \$2.00!

And MMRI begins its landmark Gerontology study-of-aging research program!

But there's one thing that hasn't changed since 1958, the power of a generous gift!

\$19.58 still goes a long way today, when you join MMRI's 1958 Club!

With your recurring monthly donation of \$19.58, you'll help MMRI scientists change lives through new, ground-breaking medical research for years to come!
